

Recovery Coordinator Background

Introduction

The impact of Covid 19 has been different for different people and as a Church we feel God would have us help others to recover.

We are looking for a co-ordinator to bring together our partnerships, activities and giving to enable us to share this journey together.

Our leader will champion and coordinate our 'OUT' (or mission) focus, through encouraging, equipping, partnering, and enabling an effective response as a church. Our mission includes (1) re-telling his story (evangelism), (2) rejoicing in good, (3) reforming the bad and (4) relieving suffering in the context of a post Covid world.

There is already significant heart and activity directed to the needs around both locally and wider, this leadership role will help us deepen and widen our corporate response and support those in GCE who are working regularly in relieving suffering.

Aims of Role

- To identify, celebrate and appraise OUTWARD blessing currently, both individual and corporate activity.
- To encourage, envision and equip people and families within CGs to raise OUTWARD awareness and opportunities for serving.
- To recognise/affirm and develop leaders to enable long term focus.
- To manage our relationship with our current key partners, monitoring opportunities versus GCE resources and proposing changes if needed.
- Increase profile of 'OUT' within the church through storytelling, celebration, support, prayer and teaching within existing activities for both adults and children.
- To work with Teaching team to base recovery activity in Grace Church Theology.
