

## COVID Guidance - Grace Together Gathering (AM)

During the initial period (lasting until October 31st) of our experimental October to December Grace Together Gatherings, we are **not** asking people to be socially distanced, and mask wearing will be at the discretion of individuals.

We will be keeping all elements of the Together Gathering (including COVID safety measures) under review and may well make changes, especially if the guidance from HMG changes.

## COVID Guidance - Grace Evening Gathering (PM)

During our experimental October to December Grace Together Evening Gatherings, our COVID guidance is largely a continuation of the guidance we followed during the Grace Adult's Gatherings. The exact Guidance is as follows:

1. **We are asking people to** check-in to The Hall using the NHS test and trace app.
2. **We are asking people to** use the hand sanitiser provided.
3. **We are asking adults to** wear a face mask:
  1. Whilst moving around the room
  2. Whilst singing
4. **We are asking people to** only chat inside with people on your table - feel free to talk outside afterwards with others.

We are also going to have **4 'socially distanced and masks on' seats** available on the Mezzanine Level at the back of The Hall. To book these seats for a particular Sunday please email [julia@gracechurchexeter.org](mailto:julia@gracechurchexeter.org).

Finally, we recognise that for some of our church family, attending a gathering in-person is too much of a risk. We will therefore continue streaming our Grace Evening Gatherings for the foreseeable future.
